

ZEN DEN

■ The suburbs have all the luck. **Zen Luxury Nail & Beauty Bar** combines the luxury of an upscale spa with the convenience of a walk-in nail and hair salon, offering such services as mani/pedis, threading and sugaring, eyelash extensions, and hair design. Recently we sunk into a leather chair, closed our eyes, and let skilled technicians rub and buff our worries away. Foot, leg, and arm massages, done with hot stones and reflexology techniques, were soothing enough to induce slumber. When we awoke, a little pot of TAY Chocolate Belgium Mint tea (aka "Better Than Sex" tea) was waiting. So we took a sip and planned our next pedi. No appointment necessary.
