

Zen Nail and Beauty Bar

Recently opened in Frisco, Zen Nail and Beauty Bar features a Japanese contemporary-style décor with fountain at the center of the room coupled with relaxing music. Cleanliness is top priority at Zen. During pedicures, clients soak their feet in custom-made marble bowls that are pipe-free (the most hygienic), and technicians kneel on pillows and mats. During treatments, clients sit in specially designed leather chairs and are offered warm neck wraps and iPods. All of the manicures and pedicures include Chanel nail polish and hot-stone massages that incorporate reflexology techniques. All services include only the highest quality products, such as SkinMedica, Gehwol, Mama Mio, Akhassa and Jack Black. Afterwards, customers can relax in a special room and enjoy TAY Chocolate Belgium Mint tea served in individual pots. This organic, hand-blended tea can only be found at Zen and is not sold in Texas. Clients are pampered during each beauty treatment experience and walk out feeling like they were at a resort.
